# Red Passion

Among the designers' favourite on all runways for autumn 2015, red evokes passion, sensuality and boldness, always serving to distinguish its wearer. Rubies, garnets, rubellites and spinels radiate beauty from every single facet, making red jewellery the ultimate eye-catching statement.

# Pink & Purple

A symbol of femininity, pink is always a summer favourite. From delicate opals to sparkling sapphires, pretty in pink never goes out of fashion. With its compelling beauty, purple has been traditionally associated with power and royal status. No wonder it's ruling the fashion runways as well as our hearts.

# Exotic Vibe

From the intricate ornaments of Moroccan palaces, to the rich motifs embellishing the walls of Turkish baths, Oriental architecture and decorative arts have always fascinated artists. Multi-millennial civilizations in the East, exotic places and cultural melting pots provide an abundant source of inspiration for jewellery designers this year. Crafted in precious metals and adorned with gems, these jewellery pieces become the symbols of inter-cultural creativity.
